

'Rethink Value' Speakers

Paul Broadfoot, Director

Paul has a passion for innovation and creativity. He has extensive knowledge of leading and managing multidisciplinary design teams. His team leads the Education, Retail and Residential projects within Space. His key skill is understanding client needs to deliver outstanding buildings that exceed expectations, both in design and in use, providing marginal gains to clients in a competitive market.

Adam Ward, Director, BIM.Technologies

Adam is an experienced construction professional with 20 years' experience. He is recognised as one of the UK's most knowledgeable and experienced BIM professionals. A qualified Architectural Technologist, he has always shown an interest in the way software can improve the design and construction workflow.

He has practical construction experience across several sectors and understands the construction process and how buildings are assembled. He has been a certified Revit professional since the accreditation was established and is a Navisworks advanced user.
